# MASTER OF EDUCATION

## Integrative Learning & Montessori Integrative Learning

### Are you ready to take your place in the transformation of education?

We guide learners on a rigorous journey through holistic systems and learning processes. We offer contexts for new leaders within the framework of creating a sustainable future.

### Do you want your master's program to be as transformative and fulfilling as you wish all education might become?

TIES' studies offer and model the kind of learning educators crave for themselves and hope to provide for others.

### TIES is unique because what is "normal" is not working.

*"You're going to be truly educated in the sense that you're going to be liberated from your old self. You're going to find your new self... it's going to be a whole new start to your life."*

*~Aarthi Nandakumar (2017 graduate)*

*"Education can help the self actualization process by establishing an open environment, one that encourages positive self concepts, feelings of identification, responsibility, openness to experience, adaptability, creativity and effective human relationships."*

*~ Philip Snow Gang, Academic Dean*
